States will be expected to review any difference(s) currently filed to overarching safety management SARPs in Annexes 1, 6, 8, 11, 13 and 14, Volume I, to determine if the difference(s) should be filed to provision(s) as transferred* into Annex 19. accessengineeringlibrary.com eBook available for Durham College via McGraw Hill. When filing differences, States should ensure that all aviation sectors (aviation training organizations, air operators, approved maintenance organizations, air traffic services providers, certified aerodromes and international general aviation operators) are properly considered. The EFOD System will be updated to include Annex 19 provisions and to reflect the consequential amendments to other Annexes* from 15 July 2013 to allow States to begin identifying and notifying their differences to ICAO. * As a result of the transfer of the safety management provisions in Annex 19, consequential amendments to Annexes 1 (Amdt.171), 6 - Part I (Amdt.37), II (Amdt.32) and III (Amdt.18), 8 (Amdt.104), 11 (Amdt.49), 13 (Amdt.14) and 14 (Amdt.11) Volume 1 have been proposed. In addition, Annex 19 contains some new provisions as explained in question n°2. Don't forget, we accept financial aid and scholarship funds in the form of credit or debit cards. This is particularly important for Chapters 3 and 4 of Annex 19. Advanced embedding details, examples, and help! In addition, for each State, a special report of the differences currently filed to safety management provisions, based on Attachment D, will be generated and made available on the Universal Safety Oversight Audit Programme (USOAP) website. In order to support this task, Attachment D to State Letter AN 8/3-13/30** contains a mapping of safety management provisions from the existing Annexes to Annex 19.
